We heard the first dove cooing last Sunday and were reminded of an old saying that it is time to plant corn when the dove coos. We had beat the dove, tho, and had some already planted. At any rate his song announces his nesting time and that means spring is here if he is not mistaken, and bird nature seldom mistakes.

We are selling frost proof cabbage plants this week and next, after which time our own plants grown in rows will be ready for transplanting and customers will be supplied from them. Many prefer the home grown plants and we can supply them next week and on. The Falcon.

The Jr. Christian Endeavor Society was entertained last Saturday evening by Mrs. Robt Reeder and Mrs. H. S. Shaw at the latter's home. Games and contests were indulged in until 10 o'clock when refreshments were served. All the little ones report a jolly time.

Somerville and her streets, allies and back-doors should have another such cleaning up right now as she had under the supervision of her ladies a few years ago on "Clean up Day". Soon every inch of unused space will grow up with weeds and grass and trash left now will begin to decay and harbor disease. Many a cart load of such waste could now be carted off and dumped in the gullies.

The J. F. Wright Produce Company advertised last week a special price on poultry for Wednesday of this week, hoping that they might get a car load here and at their Whiteville store. They had a fine offering and bought a large lot of every kind of poultry, but not a full car load. Their shipment went direct from here to a large produce firm in Chicago, being delivered to the railroad Wednesday evening.

Miss Annie Brasfield who has served this county two years as County Home Demonstration Agent has returned to this city to resume her work for her third year. She has spent the past two months as a teacher in the public school at Hickory Withe in this county. The Falcon understands she is to resume her work at once.

C. B. Mount of this city who is in the service of the Internal revenue department spent the first of the present week here assisting income taxpayers in the preparation of their reports which were due on or before March 15. He tells The Falcon that the number paying income taxes thruout this territory is very much smaller than last year. Just another reflection of the heavy losses sustained thruout this section by the disastrous business of 1920.

The fourth Monday in March which is the 28th instant the circuit court will convene in this city in regular session. Inquiry made this week at the office of Circuit Court Clerk S. A. Wetzler brought up the information that the docket so far is mighty light. It will be remembered that the court at its last session here made an almost clean sweep of the docket, leaving practically nothing to be left over to the present term. Fewer cases than usual have been turned into the clerk's office from the dockets of the Justices' courts, so that the work confronting the March term of the court will be light. Of course the work of the Grand Jury may serve to increase the number of cases to be tried. Not a murder case is on the docket this time.

The next meeting of the county court of Fayette county will be held on the first Tuesday in April, which is the fifth of the month. So far as court officials could forecast there seems now no matter out of the ordinary to be considered by the court. The county's finances are in a pretty bad fix, due largely to the law recently enacted postponing the payment of taxes until May 1. All departments of the county are without funds and the two local banks are carrying large sums of warrants which they have cashed for their customers. Information seems to indicate that few other banks have cashed any considerable volume of county warrants. There are many warrants in the hands of citizens who have not discounted them. But whether the court will attempt to do any thing to relieve this situation appears doubtful.

This Bank Has Grown

The Somerville Bank & Trust Company is next to the youngest bank in the county, started business eleven years ago with a paid capital of \$10,000 and has increased that paid capital to \$25,000 without the stockholders paying any more money, the \$15,000 additional capital being taken from the accumulated net earnings from time to time. The capital stock, \$25,000, is now fully paid, making this the second largest bank in the county. On the progressive and business-like plan which has made this growth possible, we invite the business of Fayette county people.
